

Who We Are

In 2017, EPiC Solutions was formed as a collaboration between two Industry leading companies to solve common project execution issues in the pipeline sector. EPiC is transforming the EPC process by bringing a fully integrated construction driven approach to pipeline and facility projects that delivers to our clients cost certainty and execution excellence. We achieve this through engaging Industry leading construction and engineering experts in the planning, design, and execution of every phase of the project to ensure all stakeholder expectations are met.

How

- An integrated engineering, procurement, and construction approach to project execution... from start to finish.
- Experienced construction personnel, actively involved in the construction of pipelines and trenchless crossings, lead our teams.
- Engineering and design is driven by construction experts, and constructability is built into the design before the first design review.

Our Service Offerings:

Engineering

- Right of Way Identification & Selection
- Regulatory Applications
- Environmental and Archaeological Assessment
- Pipeline Route 3D Modeling and Grade Planning
- Geographic Information System Modeling

- Geotechnical Investigations and Modeling
- Pipeline and Facility Detailed Design
- Hydraulics and Transient Analysis
- Trenchless Crossings Engineering and Design
- Stress Analysis and Annular Pressure Modeling

Procurement

- Procurement strategy and implementation plan development
- Material requisition development and management
- Contract/Subcontract requisition development and management
- Bid / Evaluate / Award management (or support as required)

Construction

- Mainline Pipeline Construction and Supervision
- Facility Construction and Supervision
- Trenchless Crossings Management and Execution support
- Project HSE Program Development
- Quality Control and Assurance
- Welding Procedure Development and Qualification
- Construction Cost Estimating, Planning and Scheduling
- Pipe Spooling and Fabrication
- Pre-Commissioning

In Every Project We Embark On, Our Mission is Crystal Clear

We strive to deliver more than just a successful project outcome; we aim to create a lasting positive impact for everyone involved.

CCI Group of Companies

EPiC is a proud member of the CCI Group of Companies.

Highlighted CCI Services: Archaeology, Construction Management, Environmental Services, Geotechnical Engineering, HDD Services & Tools, Pipeline & Facilities Engineering, Shore Approach Engineering, Regulatory, Trenchless Design
