

Overview

Ridgeline Archaeology is led by Cory Hackett, who has over fifteen years experience and has worked on over 3,500 heritage projects, is a qualified permit holder in British Columbia, Alberta, the Yukon, and the Northwest Territories and leads a team of over 25 archaeologists and technicians throughout Western Canada. Headquartered in Prince George and supported by multiple offices across Western Canada, Ridgeline offers a dynamic team of archaeologists and GIS specialists ready to deliver exceptional value to our projects.

Our team guarantees efficient and comprehensive evaluation of any project's cultural heritage requirements. We pride ourselves on our integrity and our commitment to quick and comprehensive assessments while designing useful mitigation strategies.

Qualified and dedicated local professionals, we specialize in Forestry, Highways, Parks, Mining, Oil, Gas, and Energy Projects. Our excavation and project experience includes everything from private homeowners to

single burials to entire villages and even large Natural Resource District Inventories.
